Vendor and farmer/farmers' market management includes all those activities associated with selecting, authorizing, training, monitoring, and investigating the State agency's vendor and farmer/farmers' market population for the purpose of reducing fraud and abuse in the WIC Program food delivery system.

During a disaster or public health emergency, the State agency may request to implement existing WIC regulatory and programmatic flexibilities to support the continuation of Program benefits and services. State agencies should consider the over arching authority, i.e. Stafford Act or provision(s) authorized by Congress before developing a policy and procedure. The State agency must provide a detailed description of how it plans to operationalize the flexibility through their procedure manual where applicable. Please note that State Plans Guidance is not intended to capture a description of waivers authorized by Congress with separate reporting requirements, i.e., the Families First Coronavirus Response Act (P.L. 116-127).

More recently, Executive Order (EO) 13988, "Preventing and Combating Discrimination on the Basis of Gender Identity or Sexual Orientation." was issued to all Federal Agencies. The EO set out policies that all persons are entitled to dignity, respect, and equal treatment under the law, no matter their gender identity or sexual orientation. Instructions:

Column 1 – Assign a sequential number to each peer group.

Column 2 – Describe the vendors in the peer group; include all factors and definitions checked in question 4c. (e.g., urban = counties with >10,000 residents OR suburban = counties with >10,000 residents OR rural = counties with <10,000 residents)

Column 3 – Insert the number of authorized vendors that are regular vendors.

Column 4 – If the State agency authorizes above-50-percent vendors, insert the number of above-50-percent vendors currently authorized.

Column 5 – Insert the total number of authorized vendors. This number should be the sum of columns 3 and 4, since the State agency authorizes vendors as being either a regular vendor or an above-50-percent vendor.

Column 6 – For each peer group that contains above-50-percent vendors, insert the number of the peer group that contains comparable vendors. A comparable vendor peer group is the peer group that the State agency uses to derive the competitive price criteria and levels that it applies to the above-50-percent vendors. If above-50-percent vendors are placed in a peer group with regular vendors, the number in column 1 should be the same as that in column 6. If above-50-percent vendors are in separate peer groups, then the number should be different from that in column 6.

## II. NUTRITION SERVICES

(Please indicate) **State Agency:** Pennsylvania for FY 2023

Nutrition services include the full range of activities performed by a variety of staff to operate a WIC Program such as, participant screening and assessment, nutrition education and counseling, breastfeeding promotion and support and health promotion, food package prescriptions, and health care referrals. WIC State agencies should refer to the WIC Nutrition Service Standards, available WIC Works Resource System at <https://wicworks.fns.usda.gov> for recommended criteria and best practices to incorporate activities that are consistent with providing quality nutrition services and revitalizing quality nutrition services (RQNS).

During a disaster or public health emergency, the State agency may request to implement existing WIC regulatory and programmatic flexibilities to support the continuation of Program benefits and services. State agencies should consider the over arching authority, i.e. Stafford Act or provision(s) authorized by Congress before developing a policy and procedure. The State agency must provide a detailed description of how it plans to operationalize the flexibility through their procedure manual where applicable. Please note that State Plans Guidance is not intended to capture a description of waivers authorized by Congress with separate reporting requirements, i.e., the Families First Coronavirus Response Act (P.L. 116-127).

More recently, Executive Order (EO) 13988, "*Preventing and Combating Discrimination on the Basis of Gender Identity or Sexual Orientation*," was issued to all Federal Agencies. The EO set out policies that all persons are entitled to dignity, respect, and equal treatment under the law, no matter their gender identity or sexual orientation. The EO does not usurp section 17 of 42 U.S.C, as amended or applicable regulations. However, where appropriate, State agencies may update their policies and procedures to align with the contents of the EO.

**A. Nutrition Education-246.4(a)(9); 246.11(a)(1-3)(c)(1,3-7):** describe the nutrition education goals and action plan and the provisions for providing nutrition education contacts and materials to all participants including the special nutrition education needs of migrant farmworkers and their families, Native Americans, and homeless persons. Also describe methods to be used to provide drug and other harmful substance abuse prevention information. Establish standards for breastfeeding promotion and support including development and/or maintenance of a peer counselor program consistent with WIC Breastfeeding Model Components for Peer Counseling.

**B. Food Package Design-246.10:** describe the procedures for determining which foods should be authorized and how the food package should be nutritionally tailored and by whom, and plans for substitutions or eliminations to WIC food package. In addition to regulations at 246.10, State agencies should refer to the Food Package Guidance Handbook and Frequently Asked Questions available on the FNS Partnerweb.

**C. Staff Training-246.11(c)(2):** describe the training and technical assistance provided to WIC professional and paraprofessional personnel who provide nutrition education, and breastfeeding promotion/education to participants.

### III. MANAGEMENT INFORMATION SYSTEM (MIS)

(Please indicate) **State Agency:** Pennsylvania for FY 2023

This section, Management Information System (MIS), involves the planning, documentation, security/confidentiality and production of the necessary reports relating to program operations through the utilization of automated data processing services at the State and local level.

During a disaster or public health emergency, the State agency may request to implement existing WIC regulatory and programmatic flexibilities to support the continuation of Program benefits and services. State agencies should consider the over arching authority, i.e. Stafford Act or provision(s) authorized by Congress before developing a policy and procedure. The State agency must provide a detailed description of how it plans to operationalize the flexibility through their procedure manual where applicable. Please note that State Plans Guidance is not intended to capture a description of waivers authorized by Congress with separate reporting requirements, i.e., the Families First Coronavirus Response Act (P.L. 116-127).

More recently, Executive Order (EO) 13988, "*Preventing and Combating Discrimination on the Basis of Gender Identity or Sexual Orientation.*" was issued to all Federal Agencies. The EO set out policies that all persons are entitled to dignity, respect, and equal treatment under the law, no matter their gender identity or sexual orientation. The EO does not usurp section 17 of 42 U.S.C, as amended or applicable regulations. However, where appropriate, State agencies may update their policies and procedures to align with the contents of the EO.

**A. System Planning and Operation – 246.4(a)(11)(iv):** Describe the procedures for planning, approving and monitoring Automated Data Processing (ADP) goods and services, and any interaction with other statewide ADP operations which may take place, including system costs for services and security.

Please confirm that your State agency will continue to do so. For the Supplemental Data Set (SDS), which varies by the capacity of State systems, please describe the data items which are reported electronically regarding participant characteristics and whether these items are currently being collected or if there are plans to collect them in the future.

**5. Description of MIS changes that occurred in the past year:**

Transfer knowledge from contracted staff to HHSDC staff occurred and is ongoing.

Typical maintenance and support for any changes is ongoing. For example, letter and form changes, reporting issues, audit request changes.

There was a release on June 28, 2022 which represented new functionality in the system and bug fixes to address problems noted in existing functionality. Such enhancements and/or fixes are: In vendor management, making counties sortable in the VM Results data grid, changes to the check-box in the Pregnant Nutrition Interview section, updated logic for the assignment of Risk Code 371a (Maternal smoking), assignment of Risk 211 - elevated blood levels when "yes" is chosen in "Lead Level 3.5 µg/dl or Higher".

**6. Description of MIS changes planned for the upcoming year:**

Knowledge transfer activities continue between HHSDC staff and contractors.

Complete additional releases in new system. For example, a text box will be included on the Food Management panel when adding or deleting a UPC from PA-WIC's Authorized Product List. This text box will allow for notes as to why a UPC is being added, end dated, or modified.

Due to the pandemic and the inability to have benefits reloaded to the EBT (eWIC Smart Card) remotely, PA WIC has decided to move forward with Online eWIC in PENN – No Technology Upgrades as an initial step to get prepared for technology upgrades in both PENN and eWIC delivery methods.

Continued maintenance and support of new system, such as working through list of existing issues, bugs, reports, missing items, etc.

### III. MANAGEMENT INFORMATION SYSTEM (MIS)

#### B. Participant Characteristics Minimum Data Set

The Participant Characteristics (PC) Minimum Data Set (MFDS) contains data items which are reported to FNS electronically by State agencies in April in even numbered years on all or a State-representative sample of participants. The MDS has required data items which must be collected and reported. ## IV. ORGANIZATION AND MANAGEMENT

(Please indicate) **State Agency:** Pennsylvania for FY 2023

Organization and management involves the procedures for the documentation of staff time at the State level devoted to the various WIC functions, the evaluation and selection of local agencies, the documentation of local agency staffing standards and data, as well as disaster planning.

During a disaster or public health emergency, the State agency may request to implement existing WIC regulatory and programmatic flexibilities to support the continuation of Program benefits and services. State agencies should consider the over arching authority, i.e. Stafford Act or provision(s) authorized by Congress before developing a policy and procedure. The State agency must provide a detailed description of how it plans to operationalize the flexibility through their procedure manual where applicable. Please note that State Plans Guidance is not intended to capture a description of waivers authorized by Congress with separate reporting requirements, i.e., the Families First Coronavirus Response Act (P.L. 116-127).

More recently, Executive Order (EO) 13988, "*Preventing and Combating Discrimination on the Basis of Gender Identity or Sexual Orientation.*" was issued to all Federal Agencies. The EO set out policies that all persons are entitled to dignity, respect, and equal treatment under the law, no matter their gender identity or sexual orientation. The EO does not usurp section 17 of 42 U.S.C, as amended or applicable regulations. However, where appropriate, State agencies may update their policies and procedures to align with the contents of the EO.

**A. State Staffing – 246.3(e), 246.4(a)(4) and (24):** describe the information relating to State level staff requirements and utilization as it relates to WIC Program functions and how the State agency will provide a drug-free workplace.

## V. NUTRITION SERVICES AND ADMINISTRATION (NSA) EXPENDITURES

(Please indicate) **State Agency:** Pennsylvania WIC for FY 2023

NSA expenditures involve the process of allocating, documenting and monitoring the distribution of administrative funds to local agencies, including the monitoring of nutrition education costs, and State and local agency direct/indirect costs.

During a disaster or public health emergency, the State agency may request to implement existing WIC regulatory and programmatic flexibilities to support the continuation of Program benefits and services. Please note that State Plans Guidance is not intended to capture a description of waivers authorized by Congress with separate reporting requirements, i.e., the Families First Coronavirus Response Act (P.L. 116-127).

## VI. FOOD FUNDS MANAGEMENT

(Please indicate) **State Agency:** Pennsylvania for FY 2023

Food funds management involves monitoring cost containment measures and procedures related to infant formula and other authorized food items, the monitoring and management of State agency funding sources, and the accurate reporting of participation figures.

During a disaster or public health emergency, the State agency may request to implement existing WIC regulatory and programmatic flexibilities to support the continuation of Program benefits and services. State agencies should consider the over arching authority, i.e. Stafford Act or provision(s) authorized by Congress before developing a policy and procedure. The State agency must provide a detailed description of how it plans to operationalize the flexibility through their procedure manual where applicable. Please note that State Plans Guidance is not intended to capture a description of waivers authorized by Congress with separate reporting requirements, i.e., the Families First Coronavirus Response Act (P.L. 116-127).

More recently, Executive Order (EO) 13988, "*Preventing and Combating Discrimination on the Basis of Gender Identity or Sexual Orientation*," was issued to all Federal Agencies. The EO set out policies that all persons are entitled to dignity, respect, and equal treatment under the law, no matter their gender identity or sexual orientation. The EO does not usurp section 17 of 42 U.S.C, as amended or applicable regulations. However, where appropriate, State agencies may update their policies and procedures to align with the contents of the EO.

**A. Cost Containment Measures - 246.4(a)(14)(xi), 246.4(a)(14)(xvii), 246.16a(a):** describe the policies and procedures used to implement cost containment measures as they relate to infant formula contracts, their approval and the processing of infant formula and/or other rebates, and food package cost containment practices.

**B. Funds Monitoring/798 Reporting - 246.4(a)(2); (a)(12); and (a)(14):** describe the State agency's funding sources, how food obligations are calculated to allow for inflation, rebate cash management, and monthly closeout monitoring activities.

**C. Participation Reporting - 246.4(a)(11):** describe the methods used to accurately document and monitor participation at the State and local level, and methods for monitoring changes in participation by priority.

## VI. FOOD FUNDS MANAGEMENT

### A. Cost Containment Measures

#### 1. The State agency seeks FNS approval related to infant formula cost containment measures (check one):

- For a waiver of the requirement for a single-supplier competitive system. State agency must complete a cost comparison projecting food cost savings in the single-supplier competitive system based on the lowest monthly net price or highest monthly rebate [as required in Section [246.16a\(d\)\(2\)\(i\)](#) through [\(d\)\(2\)\(iii\)](#) and savings under an alternative cost containment system, Section [246.16a\(d\)\(2\)\(B\)](#)]
- To issue an infant formula bid solicitation that evaluates bids by highest rebate. A State agency must demonstrate to FNS' satisfaction that the weighted average retail prices for different brands of infant formula in the State vary by 5% or less [as required in Section [246.16a\(c\)\(5\)\(iii\)](#)].
- Not applicable

## VII. CASELOAD MANAGEMENT

(Please indicate) **State Agency:** Pennsylvania for FY 2023

Caseload management involves identifying the target population and special populations within it, implementing strategies to enroll the potential population and utilizing caseload effectively to reach the desired populations. Describe the procedures in place to implement these strategies.

During a disaster or public health emergency, the State agency may request to implement existing WIC regulatory and programmatic flexibilities to support the continuation of Program benefits and services. State agencies should consider the over arching authority, i.e. Stafford Act or provision(s) authorized by Congress before developing a policy and procedure. The State agency must provide a detailed description of how it plans to operationalize the flexibility through their procedure manual where applicable. Please note that State Plans Guidance is not intended to capture a description of waivers authorized by Congress with separate reporting requirements, i.e., the Families First Coronavirus Response Act (P.L. 116-127).

More recently, Executive Order (EO) 13988, "*Preventing and Combating Discrimination on the Basis of Gender Identity or Sexual Orientation*," was issued to all Federal Agencies. The EO set out policies that all persons are entitled to dignity, respect, and equal treatment under the law, no matter their gender identity or sexual orientation. The EO does not usurp section 17 of 42 U.S.C, as amended or applicable regulations. However, where appropriate, State agencies may update their policies and procedures to align with the contents of the EO.

**A. No-Show Rate - 246.4(a)(11)(i):** describe the procedures used by the State agency to monitor potential and current participants' utilization of program services.

**B. Allocation of Caseload - 246.4(a)(5)(i) and (13):** describe how the State agency assigns and manages local agency caseload allocations.

Benefit Targeting - 246.4(a)(5)(i); (6), (7), (19), (20), (21), and (22):** describe the plans and procedures for ensuring that WIC benefits reach the highest risk participants and persons in special need such as migrants, homeless, and institutionalized persons; pregnant women in their early months of pregnancy; and applicants who are employed or who reside in rural areas.

**E. Outreach Policies and Procedures - 246.4(a)(5)(i),(ii); (6), (7), (19), and (20):** describe the types of outreach materials used, where these materials are directed, special agreements with other service organizations and how special populations are addressed. Also, provide data on unserved and underserved areas.

**F. Waiting List Management - 246.4(a)(11)(i); 246.7(f)(1),(2):** describe the policies and procedures used for processing applicants.

## IX. FOOD DELIVERY and FOOD INSTRUMENT (FI) ACCOUNTABILITY AND CONTROL

(Please indicate) **State Agency:** Pennsylvania for FY 2023

Food delivery and food instrument (FI) (*Food instrument* means a voucher, check, electronic benefits transfer card (EBT), coupon or other document which is used by a participant to obtain supplemental foods) accountability and control involve the production, issuance, redemption, and monitoring of automated and manual food instruments through retail systems and the delivery of WIC Program foods by non-retail methods, i.e., home delivery and direct distribution.

During a disaster or public health emergency, the State agency may request to implement existing WIC regulatory and programmatic flexibilities to support the continuation of Program benefits and services. State agencies should consider the over arching authority, i.e. Stafford Act or provision(s) authorized by Congress before developing a policy and procedure. The State agency must provide a detailed description of how it plans to operationalize the flexibility through their procedure manual where applicable. Please note that State Plans Guidance is not intended to capture a description of waivers authorized by Congress with separate reporting requirements, i.e., the Families First Coronavirus Response Act (P.L. 116-127).

More recently, Executive Order (EO) 13988, "*Preventing and Combating Discrimination on the Basis of Gender Identity or Sexual Orientation*," was issued to all Federal Agencies. The EO set out policies that all persons are entitled to dignity, respect, and equal treatment under the law, no matter their gender identity or sexual orientation. The EO does not usurp section 17 of 42 U.S.C, as amended or applicable regulations. However, where appropriate, State agencies may update their policies and procedures to align with the contents of the EO.

## X. MONITORING AND AUDITS

(Please indicate) **State Agency:** Pennsylvania for FY 2023

Monitoring and Audits involves State agency efforts to review local agency/clinic activities on an ongoing and timely basis, and to track all audits involving WIC Program activity.

During a disaster or public health emergency, the State agency may request to implement existing WIC regulatory and programmatic flexibilities to support the continuation of Program benefits and services. State agencies should consider the over arching authority, i.e. Stafford Act or provision(s) authorized by Congress before developing a policy and procedure. The State agency must provide a detailed description of how it plans to operationalize the flexibility through their procedure manual where applicable. Please note that State Plans Guidance is not intended to [include/capture] a description of waivers authorized by Congress with separate [reporting requirements and times frames/terms and conditions], i.e., the Families First Coronavirus Response Act (P.L. 116-127).

More recently, Executive Order (EO) 13988, "*Preventing and Combating Discrimination on the Basis of Gender Identity or Sexual Orientation.*" was issued to all Federal Agencies. The EO set out policies that all persons are entitled to dignity, respect, and equal treatment under the law, no matter their gender identity or sexual orientation. The EO does not usurp section 17 of 42 U.S.C, as amended or applicable regulations. However, where appropriate, State agencies may update their policies and procedures to align with the contents of the EO.

**A. Monitoring-246.19(b):** requires State agencies to establish a management evaluation system.

**B. Audits-Subpart F to 2 CFR Part 200, as applicable:** describe State agency audit responsibilities.
